title	Top thread initiators				
pattern	<pre>graph LR Person[Person] -- hasCreator --> Post[Post] Post -- "replyOf*" --> Message[Message] subgraph Post_filters [Post filters] direction TB P1["threadCount = count"] P2["\$startDate ≤ creationDate and creationDate ≤ \$endDate"] end subgraph Message_filters [Message filters] direction TB M1["messageCount = count"] M2["\$startDate ≤ creationDate and creationDate ≤ \$endDate"] end</pre>				
desc.	<p>For each Person, count the number of Posts they created in the time interval [startDate, endDate] (equivalent to the number of threads they initiated) and the number of Messages in each of their (transitive) reply trees, including the root Post of each tree. When calculating Message counts only consider Messages created within the given time interval.</p> <p>Return each Person, number of Posts they created, and the count of all Messages that appeared in the reply trees (including the Post at the root of tree) they created.</p>
